"Last Spike Given." Craigellachie, B. C., Nov. 11.

Track-laying was commenced at 6 o'clock this morning on the last half mile of the Canadian Pacific Railway.

At 6 o'clock the last rails had been brought forward and measured for splicing, to make the connection. One rail was cut and placed, and the other left until Vice-President Van Horne and party arrived.

Major Rogers made several jokes with the heavy loads on the last rail, helping to cut it. One hundred and twenty feet of rails were then taken up and left on the trestle to be placed when Mr. Van Horne and party arrived. Immediately afterwards an eastern train made its appearance with its baggage and the train drove close to the ends of the track and the party came forward.

At twenty-two minutes past six the driving was in readiness to complete the connection. The Hon. Donald A. Smith took the mail train to drive the last spike. After making it a few times he drove it home amid cheers from all present.

After congratulations had been exchanged on the completion of the great work, Mr. Van Horne's special train passed over the connecting links and departed for Port Moody, the present terminus of the road, where they will take a special steamer for Victoria. Chills from the last day were carried away as momentous by the present. Much speculation was indulged in as to what the length of the last rail would be. It proved to be twenty-five feet six inches, a considerable money changed hands among the sports. Photographers were on hand and took views of the proceedings from various positions.

run Queen's congratulations.

Ottawa, Nov. 12.—The following dispatches conveying the Queen's congratulations on the completion of the Canadian Pacific railway, has been received by Sir John Macdonald:

Ottawa, Nov. 6, 1893.

DEAR SIR JOHN MACDONALD: I have received by cable, through the Secretary of State, Her Majesty's commands to convey to the people of Canada her congratulations upon the completion of the Canadian Pacific Railway.

Her Majesty is pleased to say that she has watched the progress with much interest, and that she hopes for the future success of a work of such value and importance to the empire.

You will, I have no doubt, take steps in order to give publicity to Her Majesty's gracious congratulations. Let me conclude this note by expressing the hearty satisfaction with which I have learned that this great national work has been successfully accomplished. I am, Dear Sir John, yours sincerely,

(Signed) LARDER.

BENEATH THE WAVES.

A Terrible Disaster on Lake Superior.

The Steamer Algoma Wrecked on Isle Royale.

Thirty-Seven Persons Supposed to be Drowned.

Port Arthur, Nov. 9.—The steamer Algoma, which arrived this evening,

reports the Algoma wrecked on Isle Royale. The great schooner, one mile north of Rock Harbor light-house in a blinding snowstorm about 4:30, Saturday morning, while on last up trip. The boat is a total wreck, all that remains of her is the boilers and all.

Fourteen survivors were picked up by the Albatross. Captain Moore being badly hurt. The tug Skinkiw has gone to the wreck to pick up any bodies that may wash ashore, and secure the wrecks. Thirty persons are supposed to be lost.

The Algoma left Owen Sound on a through trip on Thursday, and was due at Port Arthur on Saturday. The steamer and its crew were on their way to the shore when the disaster occurred, on which the ship was wrecked on account of the shifting rocks extending far beyond the shore line. No list of the passengers could be obtained, as the ship's papers were destroyed or lost, and no other record of them was available. The passengers were bound for Winnipeg, among them being the wife and two children of Mr. Duggan, salesman in Mr. Fleury's dry goods store. Of the others it is impossible to speak with any certainty.

COMMUNICATIONS.

We do not hold ourselves responsible for the opinions expressed by our correspondents, but are willing to give space in our paper to any one for the discussion of public questions.

We shall not publish any letter unless we are furnished with the name and address of the sender, nor necessarily intended for publication.

ARROW RIVER.

(From Our Own Correspondent.)

Mr. J. T. Lynch has completed and is quite addition to our lumber, in which as well as numbers, as Mr. Lynch and family are noted for their musical qualities.

On Wednesday, the 11th inst., our popular teacher, Mr. John Fleming, will close his school for this season with an examination through the day and an entertainment at night. Mr. Fleming is fortunate in being able to teach and homestead at the same time, and his appearance would indicate that he is thoroughly happy over it.

ACROSS THE RIVER.

(From Our Own Correspondent.)

Mr. Chas. McCullough shot two wild geese the other day with one bullet from his Winchester.
